

Mei Kiryu's story

By Bryan Munoz-Romero

Normality

Growing up, there was this looming ideology that her hometown unfortunately has despite being a good looking city. “Normal is standard, but change is off”. This essentially means that if you try to stand out in anyway, you would be shunned. So You know she did not care.

The start

Most people would have just go with the flow in life. By age 12 she started to work, and eventually living on a decent wage, now decorates cakes. The money she had however is small, with most of her paycheck going into her home, and something special to her

Prize possession

More than \$400 dollars went into her guitar. From the strings, to replacing frets, she restored it to its former glory, but she had no one to play it for.

The discovery

One day, scrolling on the web she came across our app, you wanna know what happen next?

```
replaceAll(", ", " ", a); a =  
return a.split(" "); } $("#unique  
a = array_from_string($("#  
).val(), c = use_unique(array  
.val())); if (c < 2 * b - 1)  
c), this.trigger("click");  
{ "" != a[b] && "" != a[b]  
user_logged").val(); c = array  
c.length; b++) { -1 != a.inde  
; for (b = 0; b < c.length  
) $("#user_logged").val(a)  
click(function()
```

The end result

Not only she's recording her solos, not only shes remixing as many songs as she can, but she's doing it with us!

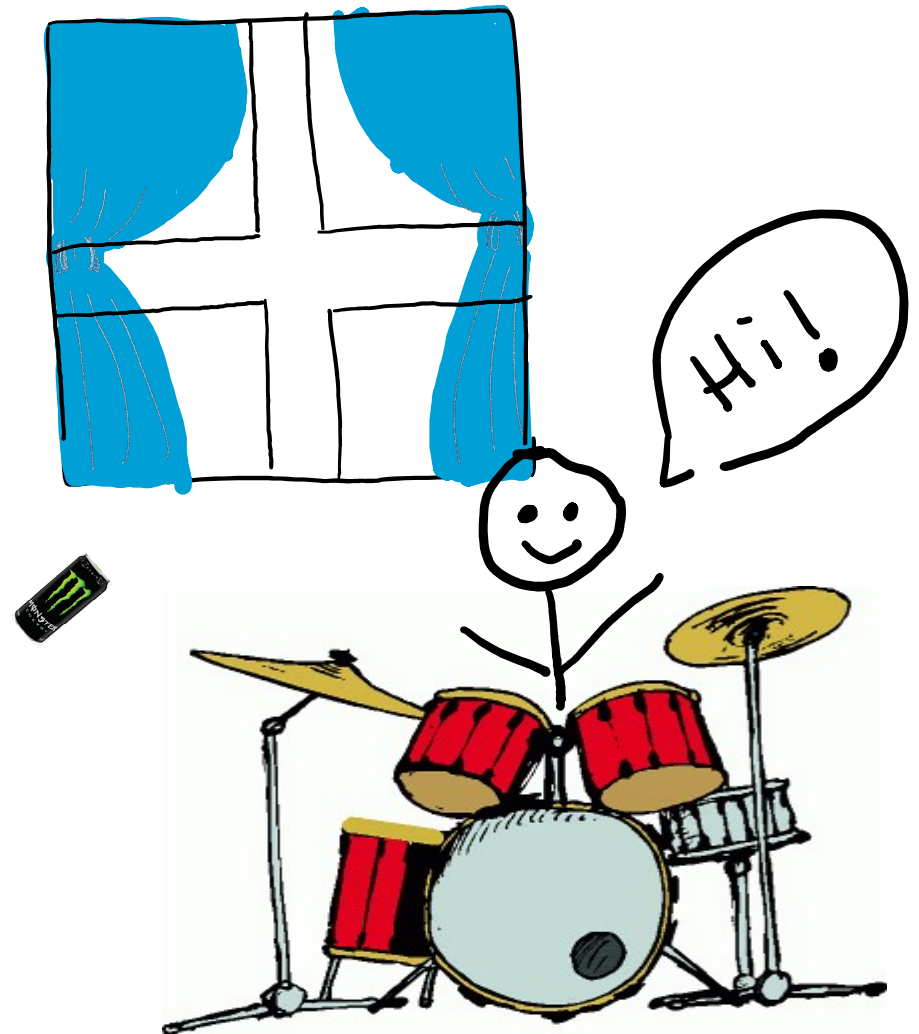

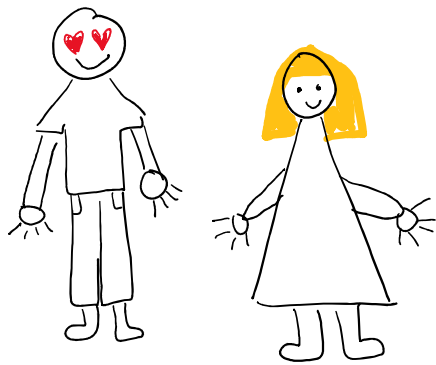

Thomas Rowley- Storyboard

Christina Desmangles

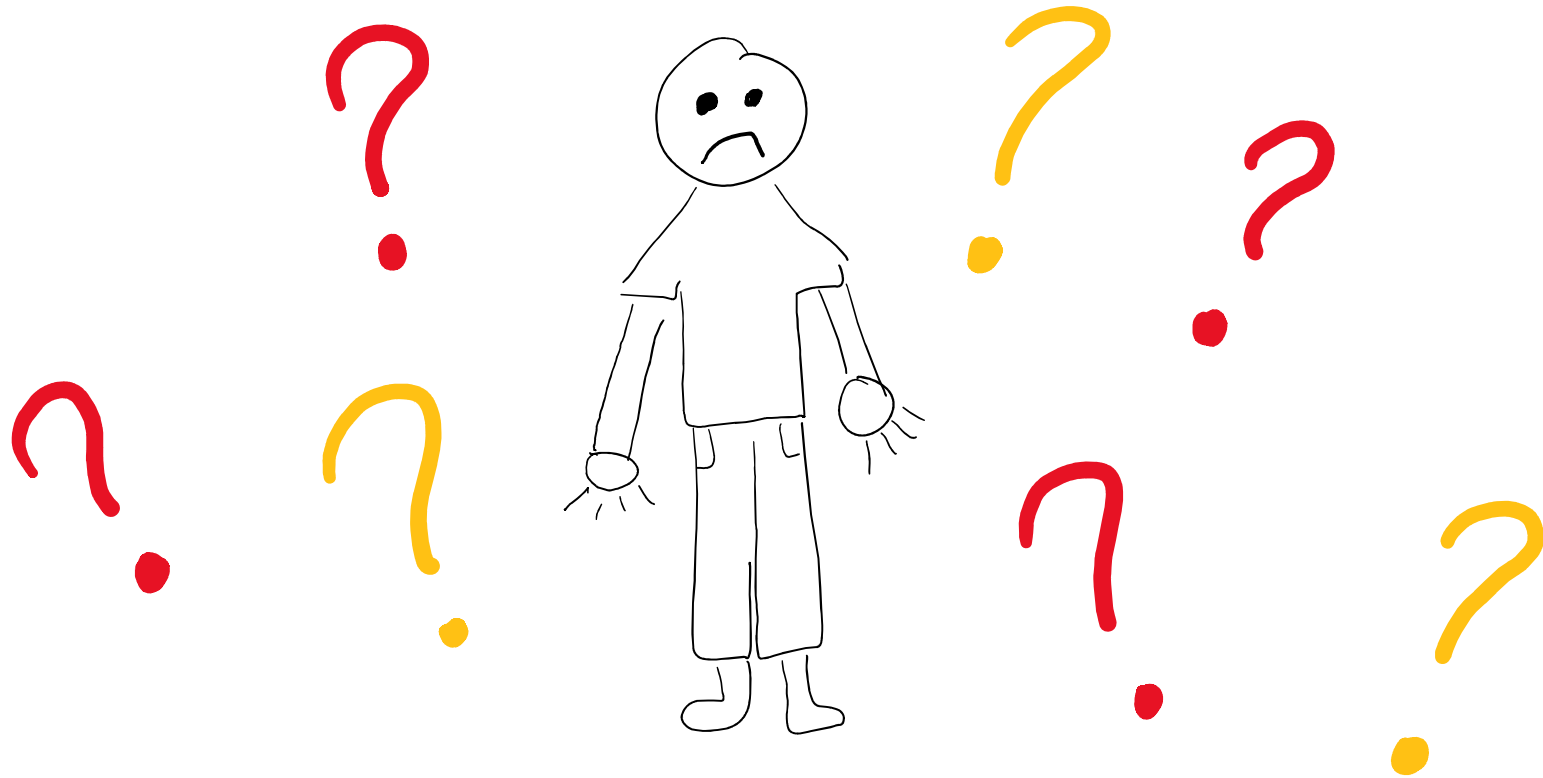

Thomas Rowley is a very boring boy. He spends most of his day sleeping in sheets that haven't been washed in a very long time. When he isn't sleeping (which is rare) Thomas can be found drinking a monster and practicing his drumming.

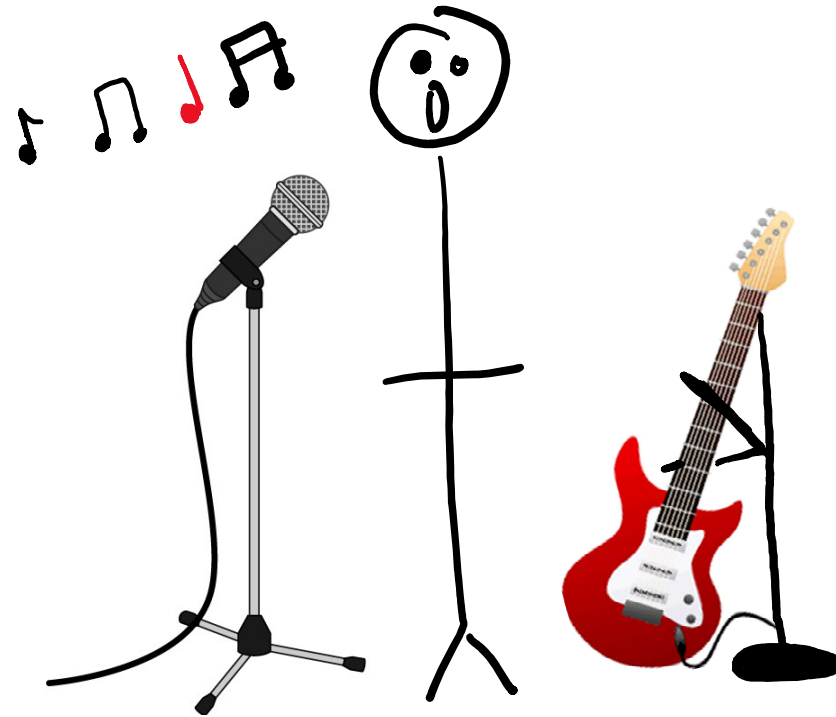

Usually, Thomas would be fine with his average daily activities. However, recently he has had his eye on a very special girl, Amanda.

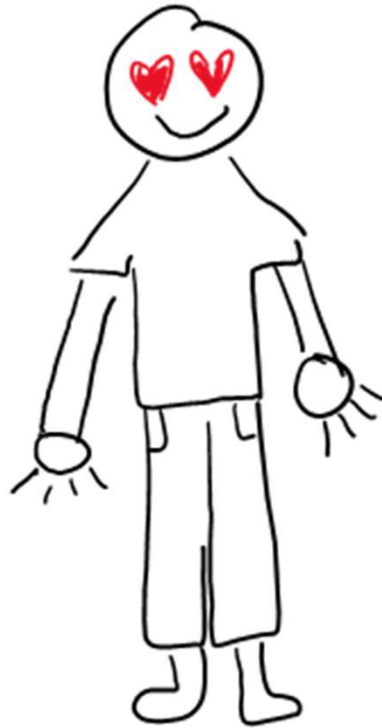

Because of his newfound love interest, Thomas wants to improve his drum and guitar skills. His band, Bones and Bros, is planning to perform this Friday and Thomas has invited Amanda.

Thomas has been searching frantically for tools to help him improve his musical abilities. During his panic, he stumbles upon *Music For All*, an app with a variety of functions related to music.

Thomas used *Music for All* to hear the music he composed so he would know he was playing it correctly. He also was able to use the chat feature to talk to more experienced musicians. Overall, Thomas was able to use the app to make himself a better musician.

Thomas and his band, *Bones and Bros*, had an amazing show because of *Music for All*. His musical ability has grown exponentially, and he was even able to get the girl he wanted. Because of the app, Thomas is living a much happier life than ever before!!

The story behind Seymour Wilson

By: Fabian Ramos

Seymour Wilson was jamming out on his banjo until one day he found himself growing tired of his same old music routine. "If only there was a way to share my music to the world" He says. Seymour, traveled all over, in search of someone, something to marvel at his talent.

It wasn't until, Seymour discovered a new, brilliant, music sharing/making service called Music4All. Seymour's passion for music has rekindled!

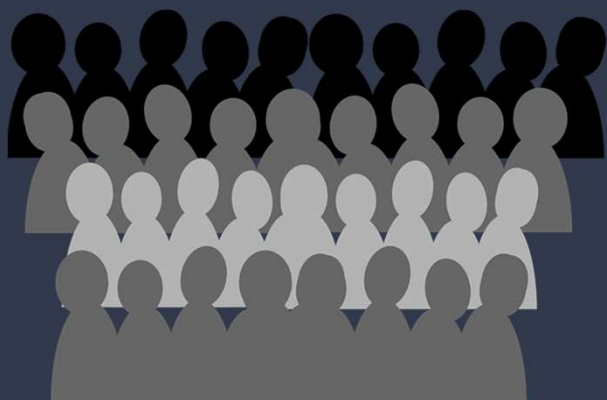

Soon after, Seymour began to realize his full musical potential and displayed it for all to see. No longer will he feel empty while playing his beloved banjo; adoringly named after his pet goldfish, "Bubbles."

With the help of Music4All, Seymour was able to overcome his un-enthusiasm for music and transform it into something beautiful.

WOW!

Overtime, Seymour's talents became a musical sensation all across the globe and eventually, grew himself to be one of the best and widely recognized banjo players in all of music history. Good for him!

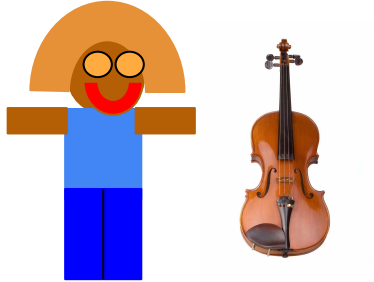

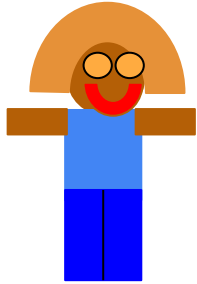

THE END

Storyboard of Joy Harmon By: Eve Blom

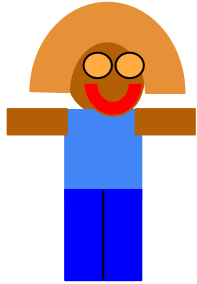

Joy is a violinist. She has been since 3 year old. She has just graduated college with her Masters in Music Theory and got her dream job. A violinist in Columbus Orchestra! She wants to first violin!

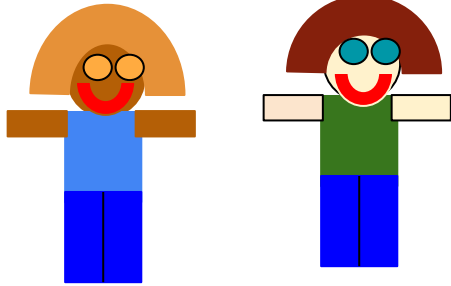

Joy, however, needs to improve her violinist skills. Despite being first in elementary to college, she is barely up to professional level. Her sight-reading skills and dynamics are poor. Her dynamic ranges can be more diverse and her sight-reading needs to be more accurate.

She also needs a wider range of music she has played to help her.

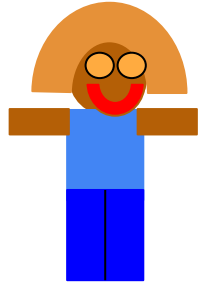

She does the right thing; practicing for two hours everyday, teaching and taking lessons, learning new technique, learning new music. However, she is not improving.

Joy asks her friend Bob, who joined last year and jumped up to 3rd violin, what he did. He tells her of an app, Music for All. This app has practice suggestion, a bunch of free and nonfree pieces, and more.

Joy gets the app. The app has all he said in more. It can remind her to practice or take breaks. It has a metronome. It lets her listen to the piece. It has solo and orchestra pieces!

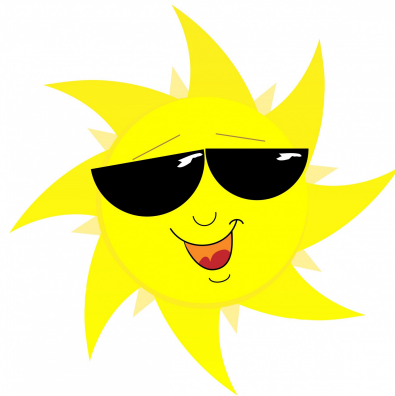

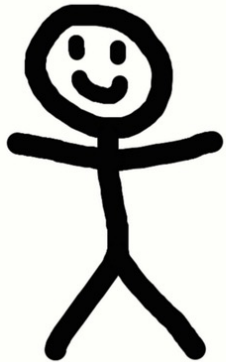

Joy uses and likes the app. It helps her improve. Next audition, she is now 3rd chair! She keeps improving her skills and eventually becomes first chair!

Story board Latisha Quandarius Johnson

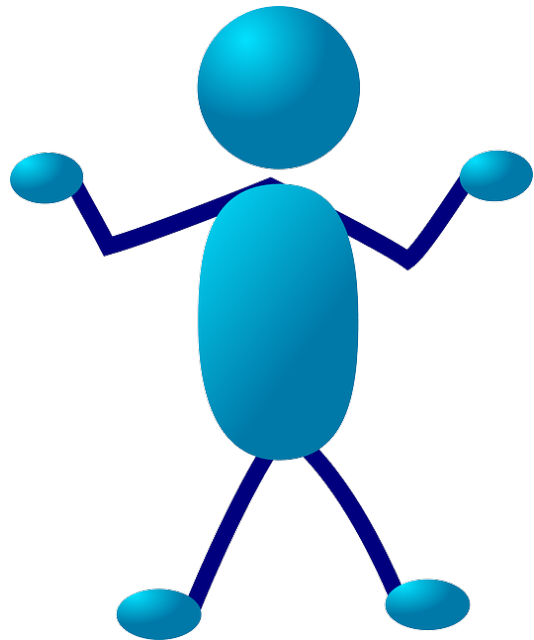

By Vershon Lee

On a hot sunny day latisha was tired and stayed inside and was trying to figure something to play with

[This Photo](#) by Unknown Author is licensed under [CC BY](#)

She couldn't find anything to do

But she figured out that she wanted to listen to music because she loved to dance

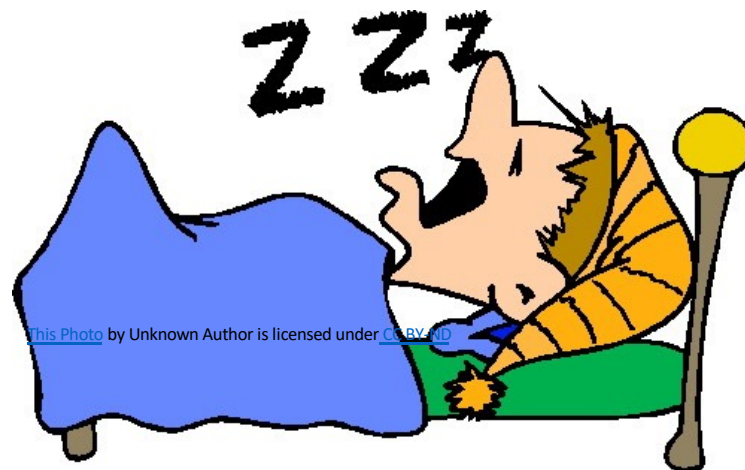

[This Photo](#) by Unknown Author is licensed under [CC BY-SA-NC](#)

She downloaded the music app and began to play music with herself and made very good music because it is easy and fun!!!

She was dancing all day long and had a blast
she can't wait to play when she wakes up

She wakes up and sees her music is being listened to around the world by kids her age too
